DIDSBURY, ALBERTA, THURSDAY, OCTOBER 9 1930

\$2.00 per Year. 5 cents a copy

Mountain View School Fair

The Mountain View School Fair was held in Community Hall, on Wednesday last. Six schools participated in the fair, namely, Gore, Grand Centre, Rosebud, Neapolis, and Jutland.

The fair was a great success, and the attendance and exhibits exceeded by far, any of the previous fairs. Great credit should be given to the boys and girls, for the high quality of the exhibits shown.

The judges were supplied by the Department of Agriculture, and their comments, both on the manner in which the fair was conducted, and the exhibits, were very favorable.

In addition to the regular prizes awarded, a number of special prizes were given by the business men of Didsbury.

False Rumor Circulated About Wheat Pool

An unfounded and apparently malicious message was circulated over the wires last Tuesday, that the Wheat Pool was in financial difficulty. It was given by telephone to the telegraph office at Winnipeg, and said: "Wheat Pool in difficulties. Provincial Government officials to take over Pool operations to protect guarantee. Banks call for \$28,000,000 from government."

Immediate and emphatic denial was made by wire by Premier Bracken, Mr. Dobson, assistant general manager of the Royal Bank, and unofficial denials also by Pool officials. The rumor was characterized as "Absolutely untruthful."

Before the bogus message could be contradicted, however, it had a most depressing effect on the already low prices. Every agency is at work to discover the originator of the damaging wire.

Heavy Grain Yields Are Reported

With the threshing proceeding, heavy yields of grain are reported in the district west of town.

Mr. Dan Dippel reports that he threshed 58 bushels per acre from a field of 7½ acres, and that his total yield of wheat averaged 34 bushels per acre.

Mr. Harry Steckley reports having threshed on the farm of Mr. L. A. Ford, south-west of Didsbury, a field of 14 acres, which yielded 60 bushels per acre, and a field of 29 acres, on the same farm, which averaged 50 bushels per acre. This wheat graded No. 2 Hard at the elevator.

Steel to be Laid On West Branch

The following telegram was received by the secretary of the Crossfield Board of Trade, last Thursday, from D. C. Coleman, Vice-president of the C.P.R., with regard to the new branch line west of here:

"Am glad to be able to advise you that we will proceed at once with laying of steel on portion of Crossfield Branch, which has been graded."

D. C. COLEMAN.

The names of the new stations and sidings will be: Nier, Madden, Dog Pound, and Cremona.

NOTICE TO GREAT WAR VETERANS

A meeting of all the Great War Veterans will be held in Didsbury, on Saturday, October 25th, with the view of organizing a branch of the Canadian Legion.

Place of meeting will be announced later.

Veterans! keep this date open, and make an effort to attend.

LOCAL & GENERAL

Mr. and Mrs. W. J. Hillyard, and Mrs. Evans, made a trip to Calgary on Tuesday.

"Second Choice," featuring Eoris Costello, is the all-talking picture, at the Opera House, Thursday, October 16th. Regular prices.

A number of Didsbury Rebekahs went to Calgary on Monday night, to visit the Sandstone Lodge in that city.

Mr. J. A. Knoelfli, manager of the York Hotel, Calgary, and family and Miss Laura Snyder, were dinner guests at the home of Mr. and Mrs. Allen Hunsperger on Sunday.

A series of dances will be held in the Didsbury Opera House, every Saturday night. Ladies, 25c. and Gents, 25c. Bellamy Orchestra. urf n.

Mr. W. D. Spence, manager of the grocery, who has been on an extended vacation to Scotland and England, visiting his old home, returned last week. Mrs. Spence, and Barbara, will remain in the old country during the winter.

Jimmy Mosley, 13 year-old son of Mrs. R. E. Mosley, who lives 8 miles east of town, had the misfortune to be kicked by a horse, when hitching up a team to the disc on Monday. The boy, who was badly injured, was brought into the Didsbury Hospital.

An inspector from the department of marine and fisheries, visited Didsbury this week, with the object in view of starting a fish hatchery in the Pioneer slough, but found the water unsuited to this purpose, owing to the offensive odor, and the presence of typhoid germs.

Baseball fans in town, have been interested in the world-series during the last few days, and where there was a radio, a crowd could be seen taking in the broadcast. Mr. F. Kaufman installed one of his "Majestic" electric radios in the barber-shop, for the convenience of fans.

The minister of Knox Church, is taking for his theme on Sunday evening, the "Passion-play of Oberammergau." This is the story that transformed the world, and will yet transform it. Beautiful colored slides will be used to illustrate the subject. A cordial invitation is given you to this special service.

Knox Church is planning a Harvest Home supper, for Monday, October 13th, from 6 to 8. Following the supper, Rev. Dr. Dickson, of Calgary, will give his talk, entitled "Plain living, and high thinking." It is expected that citizens of Didsbury and surrounding districts, will turn out to give a welcome, and hear this man, who has done so much for the religious advancement of Calgary. Adults, 50c. Children, 25c. It would be hard to obtain better value.

Mr. V. A. Bowes, assistant passenger agent for the C.P.R., was a caller at the Pioneer Office on Monday.

WANTED—A small organ for Knox Church Sunday School. Must be cheap. Apply J. Boorman. —Advt.

Pictures framed at W. H. Chamberlin's Second-hand Store. New stock of mouldings just in. All kinds of furniture repaired. —Advt.

Rev. O. V. Hehn, of Mayton, Alberta, will preach here in the Evangelical Church, next Sunday morning and also at Westcott in the afternoon. The Lord's Supper will be observed at both these services. Full attendance is hoped for.

Mr. N. S. Clarke sustained a somewhat painful accident on Saturday, when he was thrown off his wagon, as he was crossing the railroad track. He was taken to the local hospital, and from last reports, was progressing favorably.

The C.G.I.T. groups are holding a concert in Knox United Church, on October 17th, commencing at 8 p.m. sharp. Kathleen Green, a girl elocutionist of Calgary, will give the main part of the program. She has met with great success in other towns, so don't miss this opportunity of hearing her. The C.G.I.T. girls will add musical items and a play. Remember the date, October 17th. Adults, 35c. Children, 20c. 41 2c

Obituary

Edna Elizabeth, 11 years old, eldest daughter of Uriah Shantz, of Carstairs, died on Sunday, October 5th, 1930, in Calgary Hospital, after a short illness. It will be remembered by many, that Mrs. Shantz, the girl's mother also died a little over a year ago. This fact of double grief falls very heavily upon the sorrowing husband and surviving children, four in number, ranging from 1½ to 13 years.

The funeral service was held on Tuesday afternoon in Carstairs United Church, and was very largely attended. Rev. H. E. Roppel, of Didsbury, officiated.

Obituary.

Very sad, were the circumstances which surrounded the death of Hilda Spraggs, second daughter of Mr. Albert Spraggs, who lives 18 miles east of Didsbury, which occurred early Saturday morning, as the result of a fall from a horse.

On Friday morning, Hilda took the cows to pasture, and had started home, when her sister, Winnie, who was working nearby, noticed the horse without a rider. On investigating, she found the girl lying unconscious in the road. She was taken home, and failing to regain consciousness, was brought to the Didsbury Hospital, where she passed away shortly after midnight.

Hilda, who was 17 years of age, was born on the farm, east of here. She was a pupil of Burnside School, from which she graduated last year, after passing the ninth grade. She was very popular amongst all the residents of the district, and took a keen interest in all the activities of the young people of Burnside and Lone Pine districts.

She is survived by her father, three brothers, Robert and Pat, who reside in the Peace River district, Lewis, and one sister, Winnie. Her mother died about 12 years ago.

Hilda's passing is regretted by all the residents of the district, and we join them in expressing our deepest sympathy for the bereaved family.

The funeral service was held in Knox Church, Wednesday afternoon, Rev. A. E. Hayes officiating, and interment was made in Didsbury cemetery.

Lone Pine Boy Scouts attended the funeral, and the following members of the troop, acted as pallbearers: Robert Eckel, Idris Jenkins, Vivian Jenkins, Dennis Jenkins, Harold Davidson, and Ronald Lyons.

Many beautiful floral tributes were sent from Lone Pine W.I., and friends and neighbors.

Dr. Clarke, and Mr. A. W. Austin were in Red Deer on Friday, attending an examination of enquiry in the case of Reeves vs. Didsbury School Board, in which Mr. Reeves, late principal of the High School, is suing the board for the sum of \$3,200.

Economic Unity Of The Empire

Within a few days the Imperial Economic Conference will be convened in London, England, and representatives of the British Government will sit down at the conference table with representatives of the self-governing Dominions and discuss matters of mutual concern to all members of the British Commonwealth of Nations.

It will be a momentous, an epoch-marking event in the history of the Empire. There have been Imperial Conferences in the past, but they have had to do with constitutional and political aspects of our Empire relationships. For the first time serious consideration is to be given to the economics, the trade and commerce of the Empire as a unit, and to the future lines of policy to be followed by each British nation in its trade relations with the Motherland and the other Dominions on the one hand, and with the rest of the world on the other hand.

The Conference, therefore, will make history, and exert a profound influence on the future of each of the self-governing Dominions, the British Isles, the widely-scattered British colonies, in a word, the whole Empire, while at the same time its decisions will inevitably create a reaction in, and affect the policies of all other nations. A nation can no longer live unto itself alone. The adoption of any given policy by one of the major nations of the world in the present advanced state of our world civilization affects all other nations. They must take cognizance of it and govern themselves accordingly. And if this is true of the action of any one nation, it is immeasurably more true of a great union of nations comprising one-quarter of the earth's surface and more than one-quarter of the world's population.

The forthcoming Imperial Economic Conference is fraught, therefore, with great good or ill for the Empire. Today while politically and sentimentally one, it is divided economically, each individual self-governing unit treating each other in matters of trade much the same as they do foreign countries, and each coping singly with great economic problems which through joint action they might be able to solve.

The first question for the approaching Conference to consider and decide is: Shall this condition continue? Can it continue with safety to the future of the Empire? The Empire was created by conquest and built up by trade. The day has passed when Great Britain can dominate the trade of the world. Entirely new world conditions have developed, particularly during and since the Great War. As a result Britain has lost much of her world trade and economic and financial predominance. The whole world has become industrialized. Single handed Britain cannot hope to regain her lost leadership in trade and commerce, but cannot she do so in co-operation with the Dominions? Will political and sentimental ties hold the Empire together if its component parts are bitter rivals in trade, giving advantages to foreign countries, regardless of the welfare of sister British nations, solely because it seems beneficial to the individual units to do so?

These are matters for the consideration not only of Britain but for all of the Dominions as well. They transcend party politics everywhere. It is the future of the Empire that is at stake.

Assuming the decision of the Imperial Economic Conference to be that such a condition cannot continue; that they must unite upon economic lines as well as upon political lines; the next step is to find common ground of action. Admittedly it is in connection with the working out of details of policy that definite, concrete problems of opposing and conflicting interests will arise. They cannot all be solved at once, but a very real start can be made along lines of least resistance, leaving the future, in the light of actual experience, to further extend and develop the agreed upon policy as circumstances may dictate to be of mutual advantage.

A recent newspaper despatch from Ottawa intimated that the West was not greatly interested in the outcome of the Imperial Economic Conference. No greater misconception could possibly exist. The West is vitally interested. To a greater extent, perhaps, than any other part of Canada, its future is wrapped up in a successful outcome to the approaching deliberations in London. In no part of the Empire will the people evince a greater interest, possibly even anxiety, than on the prairies of this Dominion.

Making Sure Of Good Seed

The Ontario Department of Agriculture is taking time by the forelock in so far as making preparation for the World's Grain Exhibition and Conference, at Regina, in 1932, is concerned. Farmers are being urged by the department to keep this year's seed in the event of the crop of next year not being up to the high standard of former years.

What's In A Name

Winnie Chicken and Bert Bird, of London, England, have announced their engagement, which brings back memories of another London affair, a little while ago when Archie Rook was married to Carrie Swan, with Rev. James Crowe officiating as clergyman. The couple were driven to their home, which they called "The Nest," by Robert Starling.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Honeymooners Take To Air

Journey By Train Or Ship Is Considered Old-Fashioned

Honeymoons by anything so common-place as a train or ship are now "frightfully old-fashioned" says the London Daily Mail. A journey to Paris by air is the only fitting beginning of a modern wedding tour. A Croydon official says that honeymoon couples are departing and arriving almost daily. Brides are arriving from church still in their wedding gowns and veils, blushing as they are pelted with confetti while boarding a plane, which is usually decorated with flowers, but nobody has yet attempted to tie a lucky shoe to the tailskid.

Do You Value Your Health?

If your health is poor; if you are pale, nervous and easily tired; if you suffer from headaches and backaches; if your digestion is bad you may depend upon it that these symptoms come from an impoverished state of the blood. That unless this condition is remedied a complete breakdown may follow. Dr. Williams' Pink Pills are a perfect medicine for any one in this condition. They enrich and purify the blood and thus promote health and strength.

Mrs. G. M. Andrews, Halifax, N.S., writes: — "I always keep Dr. Williams' Pink Pills in the house. When I was a young, anaemic girl they completely restored my health. After marriage my health broke down and once more these pills brought me back to health. My friends all tell me how well I look and for this Dr. Williams' Pink Pills deserve all credit."

You can get these pills at all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Useful To Motorist

Recent Invention Shows Driver When Headlight Not Burning

It is often difficult and sometimes impossible to tell from the driver's seat whether both headlamps are lighted. Dr. W. Kennedy Fenton, Toronto, has invented a simple, yet effective and attractive little gadget that is readily attachable to headlamps and constantly reveals to the driver whether the lamps are lit or not. They are small reflectors in various designs which fasten to the headlight rims, they are luminous at night and visible from the driver's seat.

Asthma Is Torture. No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvelous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

Predicts Speedy "Flying Subs"

Will Cruise Eight Miles Above Earth Says Edward Warner

"Flying submarines," to cruise at 250 miles an hour eight miles above the earth, were predicted by Edward B. Warner, president of the Society of Automotive Engineers.

Cruising speeds of 100 to 250 miles an hour were sufficient for present needs, he declared, except in certain parts of the west and north, where travellers wish to fly 1,500 miles between dawn and sunset. When more speed is demanded the "submarine" and the "rocket plane," long a dream of Glen Curtiss, would be developed, Warner said.

Africa Interested In Grain Show

Evidence that competitive exhibits from far off Transvaal, South Africa, will be received for entry in the World's Grain Exhibition and Conference at Regina, 1932, is found in a request to the office of the exhibition for a number of tags for attaching to exhibits. The Hartbeespoort Experiment Station at Brits, Transvaal, is also anxious to receive special information regarding the exhibition of corn.

The greatest mistake we can make in life, is continually to be fearing that we shall make one. Never explain. Your friends do not need it, and your enemies will not believe you.

Use Minard's Liniment for Foot Ailments.

W. N. U. 1855

Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Rural School Supervision

New Plan Of Rural School Improvement Inaugurated In Saskatchewan

Announcement was made recently by Premier J. T. M. Anderson, Minister of Education, of the appointment of the first rural school supervisor for Saskatchewan, under the new plan of rural school improvement being put into effect by the Department of Education.

Miss Mary Isabella Grant, of Cabri, Sask., is the first supervisor to be appointed by the Public Service Commission and will assume her duties immediately in the new experimental supervisory school area in the neighborhood of Kindersley and Glidden, Sask.

The appointment of rural supervisors, according to the premier, is being made in accordance with numerous requests from school trustees and ratepayers throughout the province who wish to co-operate with the Department of Education in a plan to provide closer supervision of rural school education.

The Minister of Education believes that the experiment will do much towards solving the many problems of Saskatchewan's rural school education.

Is it usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

Despite the cold and long sunless periods in the Arctic Zone, about 2,000 specimens of plant life have been discovered there, among them willows, junipers, ferns, mosses and numerous flowering plants.

Inhale Minard's Liniment for Asthma.

Commercial fruit production last year in Canada had a value of \$19,591,240, of which Ontario accounted for \$8,656,097; British Columbia, \$6,766,550; Nova Scotia, \$2,830,088; Quebec, \$1,145,846, and New Brunswick, \$192,659.

Detect Sounds In Water

Ultra-Sonic Beams Permit Secret Communication Between Ships

Secret communication between ships by means of ultra-sonic beams projected through water was suggested as a future development of radiation by Dr. R. W. Boyle, of the national research laboratory at Ottawa, who addressed the fifth annual convention of the Institute of Radio Engineers in the physics building of the University of Toronto.

Ultra-sonics, or sounds that have too short a wave-length to reach the human ear, have been used with success in the detection of submerged objects, Dr. Boyle explained, and he believed that future development of their use would open up a new means of communication.

Showing sketches of ships provided with projectors of these beams, fixed to their hulls below the water line, he suggested that beams might be interchanged between ships and their radiations utilized by means of code to send and receive messages.

Icebergs may be detected in deep water more successfully by these beams than is usually recognized, he said.

Steel hulls, or submarines could be detected with accuracy when at a distance of four miles, he said, and land could be detected when six miles away.

Perfect dyeing so easily done!

DIAMOND DYES contain the highest quality anilines money can buy! That's why they give such true, bright, new colors to dresses, drapes, lingerie.

The anilines in Diamond Dyes make them so easy to use. No spotting or streaking. Just clear, even colors, that hold through wear and washing.

Diamond Dyes never give things that re-dyed look. They are just 15¢ at all drug stores. When perfect dyeing costs no more—is so easy—why experiment with makeshifts?

Diamond Dyes
Highest Quality for 50 Years

Cut Down Food Wastage

--- by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

Responsibility For World Peace That Rests Upon Those Who Speak the English Tongue

Dr. Nicholas Murray Butler, president of Columbia University, addressing the Pilgrims Society in London, England, recently had a telling word to say of the responsibility for world peace of the English-speaking world. Dr. Butler said:

Everyone with the sound of my voice has read those opening chapters of the first volume of Mr. Winston Churchill's book, "The World Crisis." Those chapters trace with a hand of fate from Fashoda to Sarajevo what Mr. Churchill calls the milestones of Armageddon. You can actually see men in the hands of Fate marching to their death accompanied by an irresistible music of lure and ambition. Perhaps many of you have read what seems to me to be an exceptionally interesting bit of journalistic work done by Herr Emil Ludwig in his recently published volume called "July, 1914." He has assembled there what recent research enables him to do, and has placed in logical and chronological order every document which tells the story of that fateful month and of the first few days of the month that followed.

If you will read those documents you will see that perhaps twenty or twenty-five men, alone and unaided, carried ten million human beings to their death and destroyed the wealth of generations. What I mean, Mr. Chairman, is, imputing blame to none, least of all finding fault with an individual, what I would point out is that all that represents the bankruptcy of a mode of thinking upon which we must turn our backs. We must rise from the old-fashioned, selfish, competitive, quarrelsome nationalism to a new and loftier patriotism which finds a nation's highest purpose in its highest service. And when, Mr. Chairman, we state that fact, we indicate in a word the responsibility that rests upon those who speak the English tongue.

It makes no difference whether they live in this old homeland Island or whether they have gone out overseas to build a dominion of the British Commonwealth of Nations, or found a government of their own. Their responsibility is one and single and undivided because of the trust they bear, and that trust is the trust of those institutions of civil, religious, political and economic liberty which we have been building for more than a thousand years. These institutions it is that we offer to our fellow-men, and the time has come to do this by effective example on our part, by persuasion and by leadership, through those who speak our views and frame our policy. We dare not, Mr. Chairman, sit still and let matters drift and take their course.

Good News For the Cook

It is planned at Paris to make a talking picture revealing the art of French cooking. The preparation of French delicacies, sought after the world over, will be depicted and explained in the film by an expert chef, who will be seen at work. The film is intended for world distribution.

The truth hurts, and so would you, if you were stretched as much.

"Is there still as much fighting here in the village as there used to be?"

"Oh, no! The people don't agree at all, now." — Nagels Lustige Welt, Berlin.

W. N. U. 1855

Mechanical Hen Was

Instructive Exhibit

Created Great Amount Of Interest At World's Poultry Show

The exhibits in connection with the recent world's poultry congress in London, England, were instructive and entertaining.

A model hen, seven feet tall, held the attention of thousands of visitors each day largely on account of its novelty. Made of wood wallboard and a few feathers, this bird had a set of mechanical "internal organs" which were visible and showed how feed is ground in the gizzard and distributed. Naturally it would not be completed without an arrangement for laying eggs. A small motor operated the lathe on which the eggs were "turned." Then small mannikins were attached to the various parts and appeared to furnish the power which really came from electric motors installed behind. With the aid of a special phonograph record the "hen" gave full explanation of the interval processes and incidentally gave information on proper feeds and methods of feeding. Poultrymen have shown a great deal of enterprise in bringing before the public the outstanding features of their industry and this "mechanical hen" is one of the outstanding accomplishments.

Marketing Geese

Good Time Now To Prepare Them For Shipment

The time to prepare geese for market is when the weather turns cold in the fall, state poultry experts of the Dominion Department of Agriculture. They should then be taken off pasture and those selected for market should be placed in small penned enclosures, provided with plenty of water and grit and kept clean. They should be fed heavily on whole corn, the best medium for the fattening of geese, and about two weeks' heavy feeding should fit them for market. Twenty-four hours before killing geese should be starved, but given plenty of water. Care should be used in plucking, the dry or steam methods being recommended, for the reason that the feathers are particularly valuable, bringing as much as 60 cents per pound. The dressed bird should be rubbed over with a damp cloth and set aside to cool. The twelve-bird box makes a desirable market package.

Safeguards the Consumer

Inspection Service For Fruits and Vegetables Assures Quality

The shipping point inspection service administered by the fruit branch of the Dominion Department of Agriculture is doing more than anything else to improve the quality and extend the market range of fruits and vegetables in both the domestic and export markets. Providing as it does a neutral determination, the certificate of the federal inspection service is accepted everywhere as the criterion of quality. The service applies to the canned as well as the fresh product, and the housewife buying canned products in Canada knows that she gets what she buys when she buys by the quality mark—"Choice," "Fancy" or "Standard"—which appears on the label. The quality determined by inspection at the canning factory goes into the can before the label goes on. The Federal grade marked on the container is the consumer's safeguard and the assurance of quality.

The Proper Approach

A man who had been waiting patiently in the post office could not attract the attention of either of the girls behind the counter.

"The evening cloak," explained one of the girls to her companion, "was a redingote design in gorgeous lamb brocade, with fox fur and wide pagoda sleeves."

At this point the long-suffering customer broke in with: "I wonder if you could provide me with a neat red stamp with a dinky perforated hem, the tout ensemble delicately treated on the reverse with gum arabic. Something about two cents."

Northwest Rebellion Veteran

Private Of Royal Grenadiers Visits Scenes Of Battles Of 1885

Andrew Murdison, who as a 21-year-old private of the Tenth Royal Grenadiers took part in the battles of Fish Creek, 50 miles north of Saskatoon, April 24, 1885, recently revisited the site of the combat.

He found the battlefield exactly as he remembered it to have been 45 years ago. He saw the ravine where among the trees the half-breeds had their rifle pits and from which they fired on the troops who lay on the ground in the open.

Mr. Murdison tells how the advance scouts were shot from this ambush and the riderless horses came galloping back. The troops then advanced as if on parade and threw themselves on the ground in extended order. They fired back at the Indians, but only got an occasional glimpse of one as the enemy had prepared pits just over the lip of the ravine and only a head would sometimes be seen as a man rose to fire.

General Middleton had a horse shot under him and his cap blown off by a bullet, an incident which Mr. Murdison saw. He also recalls how a shell from the artillery blew up the Touronde House in which a number of rebels were concealed. A hollow in the ground now shows the former site of this house.

After a time the Indians disappeared from the ravine and the soldiers entering it found about 60 of the Indians' horses which had been killed by the shell fire. They found no Indian dead. The graves at Fish Creek are those of artillerymen killed in the battle.

Mr. Murdison also took part in the four-day battle at Batoche, on May 9, 10, 11 and 12, 1885, with the big charge on the final day. The church at Batoche near where the fighting began still stands.

Colonel Grassett, who commanded the Tenth Royal Grenadiers at Fish Creek is still living in Toronto, says Mr. Murdison.

Egg Laying Contest

University Of Saskatchewan Hen Makes Good Showing

"Lady Victoria," former holder of the world's egg laying record, has completed her second year with an output of 203 eggs. In her pullet year at the University of Saskatchewan, this hen laid 358 eggs in 365 days, copping the record, but this has since been taken from her by a Black Orpington pullet in Australia, which produced 361 eggs in the year.

Though not a world's record, "Lady Victoria" did well to lay 203 eggs during her second year, Prof. R. K. Baker, of the university poultry department, says. It is a high figure and will provide the university with much material for breeding purposes. Two daughters of the former champion started laying this week.

Rose Growing Business

Rose growing as a business is rapidly developing throughout Canada into a trade of considerable magnitude, according to the Ontario Department of Agriculture. Although the great majority of growers are found in Ontario, nurserymen and florists are cultivating roses in every province of the Dominion.

National Television On A Nation Wide Network Is A Dream Of The Future

Water and Salt

Live Stock and Especially Young Animals Are Often Neglected

How about the water and salt? As a rule, dairymen are careful that the cows always have plenty of good water. If the water is lacking or stale, the cows soon tell about it in the pail. Shorter milk cheques keep up interest to discover the cause. Observation reveals that the growing stock suffer more from lack of water through the hot months than do the milk cows. They are pastured away by themselves and not seen so often. If the water has to be pumped to them, it is often neglected. If they have a stream or spring and it goes dry, it may be days or weeks before the trouble is discovered. In too many cases the young stock drink swamp water and take it only as a matter of necessity. Under such conditions they cannot do well, no matter how good the grass may be. Another frequent cause of lack of thrift is shortage of salt. The salt box should be a regular part of pasture equipment. To build up a good store of minerals in the system a mixture of three parts bone meal and one part salt is advised. The same mixture should be used in the pasture for the milking herd.

Weed Seeds Are Hard To Destroy

Germination After Fifty Years Shown In Recent Tests

No wonder the farmer has trouble trying to eradicate weeds, for Dr. W. J. Beal, of the Michigan experimental station, has just shown how long lived some of the seeds are. Fifty years ago he buried a lot of several different kinds of weed seeds. Every ten years some of these seeds are dug up and the attempt made to germinate them.

Strange as it may seem, some of the weed seeds which did not grow at the end of five or ten years germinated to some extent at the end of 40 years. Foxtail lived for 30 years, but has not been growing since. Two-thirds of the tumbleweed seeds were still germinable after forty years. Curled dock seed has a much longer life than might be expected, and was eighteen per cent. germinable in the fortieth year. Several weed seeds will not live for even five years, but a great many of them will retain at least some vitality for thirty or forty years. Does this not show how very careful the farmer must be to cut the weeds before they have a chance to seed and spread many potential plants around.

Mail Was Delayed

Letters mailed 26 years ago in Paris have been sent to their destinations. The delayed mail was discovered when a truck demolished a post box in front of the Luxembourg station. Examination of the wreckage revealed that letters and postcards dated 1904 and 1905 had apparently slipped into a neglected corner of the box and were never collected.

Canadian Cattle Re-enter England

Canadian beef will re-enter the British market for the first time since 1928 with the shipment from Montreal recently of 128 head of grade Herefords and shorthorn steers, bred in Ontario and now consigned to a firm of importers in Manchester. The majority of the steers were raised on the farms of P. J. Henry, of Ridgeway, Ont., and A. J. Campbell, of Dutton, Ont., and were brought on the Canadian Pacific Railway to the Eastern Cattle Market, Montreal, to await shipment to the old country. Shippers of livestock believe that the British market, dead for the past few years so far as Canada was concerned, once more offers remarkable opportunities to Canadian breeders. One hundred and sixty thousand head of cattle and 62,000 calves, in addition to 29,000,000 pounds of dressed beef, were shipped from Canada to the United States last year, but for the future such trade is severely hampered by the unfavorable American tariff.

National television on a par with sound broadcasting is a considerable distance in the future. When such a development will materialize, engineers hesitate to say. Dr. Alfred Goldsmith, vice-president and general engineer of RCA, and long identified with broadcast engineering, thinks it will not be possible until three years have elapsed, and it may be longer.

"It seems likely that national television service of proven value within a year would be a miracle," he said. "Within two years it would be an amazing feat; within three years it would represent a fine achievement of hard work, and within five years it would be a development proceeding at a good and normal pace."

"If television is developed as a service of real entertainment and instructional value to the public it will take its place beside radio broadcasting as one of the greatest agencies of human progress and enjoyment, but it is not to be expected that the day of television is as yet at hand."

"Laboratories are doing excellent work in the development of television and will probably ultimately bring the equipment to a satisfactory stage for public use. It is dangerous to make any definite prediction as to how long this will take."

Dr. Goldsmith pointed out that the term television means so many different things to various people that a clarification is important. "Some think it means small, dim, blurry and shifting images. Others think it means perfect, large brilliant pictures like the finest movies."

"Television is a radio service of pictures in motion of sufficient detail and quality to have continuing entertainment value to the public, month after month and year after year. It is believed that it is necessary to be able to show clearly the head and shoulders of several people in a closeup and also action of a group at a greater distance with a reasonable amount of background detail."

"It is necessary that receivers supplied the public be simple, compact, quiet, and fairly automatic and reliable in operation and reasonable in cost. Pictures must be brilliant enough to be seen in an ordinary dimly lighted room, of good color, of adequate detail, of real pictorial value, without annoying flicker, and visible to persons seated in various parts of the room."

"In order that the people of the United States and Canada shall enjoy such a service it must be carried out on a national scale. This means erection of numerous television transmitters. They must be located at proper points all over the country, and on occasion be interconnected by wire, radio or through shipment of film subjects so that programmes of interest may be brought to the public promptly."

Establishment of transmitting station and creation of programs for the entire continent is a lengthy and expensive job. To be of value to the public, programmes must be arranged so that they will co-ordinate sight and sound properly. Correct wave-lengths for television for city, suburban and rural service must be determined. Incorrect choice of wavelengths means ruined or unreliable transmissions."

"What is the difference between capital and labor?"

"Well, I suppose I lent you \$5."

"Yes!"

"That is capital."

"Then what is labor?"

"Getting it back from you."

Absent-Minded

Town Planning In Alberta

Article 6.

Maintaining the Scenic Advantages
Of Alberta Highways.
Gasoline Filling Stations.
Refreshment Booths.

More unappealing to the eye than advertising signs, may be refreshment booths sometimes erected, and gasoline stations are not always built to accommodate their customers, without interference with highway traffic. These matters are taken care of in recently promulgated regulations, and in the 2,500 miles of main highways of the Province, (outside of cities, towns, or villages) the locations and design of filling stations, garages, and refreshment booths, must be approved. Nor can any new private structure be nearer the centre of these main highways than 60 feet. Provisions supplementary to sanitary regulations already in force, are also inclu-

ded in regard to tourist camps. The general object of the regulations in regard to such public conveniences, is not to prohibit, but to assist in co-operation with the owners in making their buildings and equipment more attractive to the public, and hence, more remunerative to the owner himself.

The regulations which should maintain traffic safety, convenience and amenity, read in part:

On any declared (main) highway, the design, location and construction of any building, or part thereof, which is, or intended to be used as a gasoline filling station, garage, automobile service station, or for the purpose of supplying travellers with refreshment, shall be subject to the approval of the Town and Rural Planning Advisory Board. All applications for approval shall be submitted to the Director of Town Planning, Parliament Buildings, Edmonton. Plans, design and specification, are to be furnished with the application forms, and a yearly license fee is also required.

SPUDS PROMISING

There is a chance that potatoes may be an exported product of Alberta this year. It is expected that throughout the Dominion the yield will be below the average due to various causes. In certain parts of the East rust and mildew have cut the crop considerably. It is expected that B.C. will not have as large a crop as usual. In fact Alberta and Manitoba are the only two provinces to declare a normal crop.

Alberta potato growers are warned that they will probably have a good market ahead of them this winter.

Those who bought potatoes last winter will remember the excellence of the Alberta product in comparison with those shipped in from farther points.

This year the local potato crop is said to be excellent both as regards quality and quantity. It will pay to harvest the crop under good weather conditions and to watch out for the

FARMERS WANT ALBERTA LIVESTOCK

Many farmers want feeding and breeding Cattle. Livestock is one of the best means by which grain can be marketed. Help to preserve this market, by keeping unfinished cattle, and breeding stock on Alberta farms.

WHAT HAVE YOU FOR SALE?

If you have cattle for sale, send a list, giving full particulars of number, breed, age, condition, etc., to—

Livestock Branch--Alberta Department of Agriculture
PARLIAMENT BUILDINGS, EDMONTON

DO YOU WISH TO BUY?

Those wishing to buy cattle, should write to the above Branch, giving full particulars of their requirements.

HON. GEORGE HOADLEY,
Minister of Agriculture.

H. A. CRAIG,
Dep. Minister of Agriculture.

A new deal for today's dollar!

NASH

Announces

3 new EIGHTS and a new SIX

NEVER was such motor car quality offered at prices so sensationally low. The literally startling difference becomes at once apparent when you contrast the prices of the new and finer Nash series, with prices of corresponding models a year ago.

Its low non-productive overhead, its elimination of borrowed capital, and remarkably foresighted manufacturing alone enable Nash to offer so much for so little. The unique example in value-giving thus provided

the industry was planned last November. At that time, C. W. Nash and the strong group of executives surrounding him, clearly foresaw present conditions. They at once began to design cars affording value so great, so unmistakable, as to overcome all buying reluctance.

The result is instantly apparent. Even casual inspection of the four new Nash cars establishes the fact that *nothing even remotely approaching them in downright dollar value has ever been available in their respective price fields.*

SENSATIONALLY PRICED!

STUDY THESE SENSATIONAL PRICES!

Compare what is probably the most remarkable achievement of Nash in greater value-giving—the New Six—with the Single Six it succeeds. The New Six offers a multitude of superiorities—at prices which range from \$205 to \$180 below the prices of the Single Six.

Body Style	The New Six W. B. 114 1/4"	Last Year's Six W. B. 114 1/4"	Price Difference
Sedan (4-door)	\$1090	\$1295	—\$205
Coupe	\$1025	\$1210	—\$185
Coupe (rumble seat)	\$1060	\$1260	—\$200
Sedan (2-door)	\$1025	\$1205	—\$180

Compare the New Eight-70 with its two additional cylinders, its longer wheelbase, its larger, more luxurious body, with the six-cylinder car it replaces. Then consider the remarkable fact that there is actually a basic price differential in favor of the new Eight!

Body Style	The New Eight-70 W. B. 116 1/4"	Last Year's Six W. B. 114 1/4"	Price Difference
Sedan (4-door)	\$1280	\$1295	—\$15
Coupe	\$1215	\$1210	+\$5
Coupe (rumble seat)	\$1255	\$1260	—\$5
Special Sedan (4-door)	\$1230		

Compare the New Twin-Ignition Eight-80 with the 6-cylinder car it replaces. The Eight-80 is larger, longer. Design, appointments, upholstery are finer—prices are radically lower.

Body Style	The New Eight-80 Twin-Ignition W. B. 121"	Last Year's Twin-Ignition Six W. B. 118"	Price Difference
Sedan (4-door)	\$1770	\$1940	—\$170
Coupe	\$1700	\$1840	—\$140
Coupe (rumble seat)	\$1755	\$1910	—\$155
Town Sedan (4-door)	\$1885		

Compare the New Twin-Ignition Eight-90 Series, now with a 115 H. P. Engine, with the last year's 100 H. P. Eight. Body appointments are finer, upholstery more luxurious, and prices are far lower!

Body Style	The New Eight-90 Twin-Ignition W. B. 126 1/2"	Last Year's Twin-Ignition Eight W. B. 124 1/2"	Price Difference
Sedan (4-door)	\$2150	\$2480	—\$330
Cabriolet	\$2335	\$2505	—\$170
Coupe	\$2335	\$2650	—\$315
Coupe (rumble seat)	\$2405	\$2735	—\$330
Sedan (7-pass.)	\$2665	\$3050	—\$385
Limousine (7-pass.)	\$2810	\$3320	—\$510
Ambassador	\$2525	\$3010	—\$485
Victoria	\$2435	\$2835	—\$400

(Above Prices Are Canadian List, F. O. B. Factory and Include all Taxes)

SIR HENRY THORNTON

ANNOUNCES WINTER

BROADCAST SCHEDULE

A distinct and characteristically Canadian series of broadcasts for the fall and winter season has been arranged by the Canadian National Railways, Sir Henry Thornton, Chairman and President of the National System, announces.

In addition to continuing the All-Canada Symphony Concerts from Toronto, a series of dramatizations depicting incidents in the early history of Canada will be presented in the form of playlets in which the parts of various characters will be represented by actors of outstanding ability.

Referring to the programmes for the coming season, Sir Henry said: "Last year we brought to Canadian listeners a series of symphonic programmes featuring the world's greatest composers and played by the most outstanding orchestra in the Dominion. The expressions of appreciation from innumerable family groups scattered across the entire country have so encouraged us that we have renewed the arrangement, and commencing October 12th the series of 26 concerts for this season will open.

"As was the case a year ago, this will be known as the All-Canada Symphony Hour, and as a further symbol of its national character it will open each Sunday at 5 p.m. (E.S.T.) with the striking of the great clock in the Peace Tower at Ottawa, thus bringing clearly to the minds of all listeners the Capital of our country and also its magnitude through the variation of time.

"Again we will feature Canadian soloists exclusively. By creating an environment and atmosphere in which Canadian artists could best express themselves, we succeeded in revealing and in a measure developing a wealth of talent that I venture to say most Canadians did not dream existed. The keen interest and response on the part of our best artists themselves showed us clearly that among them there exists a deep intensity of interest in the future of Canadian music and art and a keen appreciation of our efforts last year.

Church Announcements

M.B.C. CHURCH

Rev. C. J. Hallman, Pastor.

Sunday Services:

1:30 p.m.—Sunday School.

2:45 p.m.—Preaching Services.

7:30 p.m.—Preaching Service, including Young People's meeting every alternate Sunday.

A Welcome Awaits You.

LOCAL & GENERAL

Scratch Pads may be obtained at the Pioneer Office, 2 for 5 cents.

Miss Ruth Frasch entered the Garbutt College last week.

Mr. A. Meston spent Sunday with his parents at Three Hills.

Mr. and Mrs. J. V. Berscht, and family, visited relatives at Three Hills on Sunday.

Mr. W. J. Waldron was in Calgary on Saturday, when he sat for examination as a movie operator.

Mrs. E. G. Ranton is visiting in Vancouver, B.C. She was accompanied by her sister, Mrs. A. W. Ormsby, of Edmonton.

Dr. H. C. Liesemer spent last week in Calgary, where he took a post-graduate course in advanced dentistry.

Miss Celia Cressman was named a life-member of the W.C.T.U., at the convention held at Red Deer last week.

Miss M. Leadbetter completed her course of training at the Holy Cross Hospital, last week. She received her first charge as special nurse, on Sunday.

Gordon Young and Fred Heywood while hunting on the Emery farm, west of Crossfield, on Wednesday last, killed an eagle, which had a wingspread of 7 feet, 8 inches.

The Inter-Schools Track Meet, which was to have been held at Innisfail on Friday last, was postponed. According to information given us, the meet will be held in the spring.

Rev. H. Clay, former rector of St. Cyprian's Church, returned from England last week, where he spent a summer vacation. A rumor prevails that he will have charge of one of the Calgary churches.

A number of members of the local lodge of Oddfellows, visited Crossfield last Wednesday, to attend the annual district meeting. They reported a good attendance, and an interesting meeting. Tonight, (Thursday) the lodge intend to visit the Three Hills lodge, where special work is being put on by members of the Calgary lodges.

The Grand Lodge of Alberta, A.F. & A.M., will celebrate the twenty-fifth anniversary of its institution as a grand lodge in 1905, on October 11th. A special communication of grand lodge has been called by the grand master, Dr. S. M. Snedden, to meet in the Masonic Temple, Calgary. Many distinguished visitors are expected to be in attendance from the neighboring grand jurisdictions, and also well-known men from all over Alberta.

"FRUIT-A-TIVES" ENDED YEARS OF MISERY

W. N. U. 1855

New Device Demonstrated

Music Produced From Instrument Based On Radio Principles

By merely moving his hands before a plain looking cabinet, Lennington H. Shewell, a national broadcasting artist, created music of such amazing tone and beauty that radio engineers from all over America, who heard him, applauded enthusiastically.

It was the first public demonstration in Toronto of the Victor Therman, a musical instrument based on radio principles, which had been brought here for the annual banquet at the King Edward Hotel held in connection with the fifth annual and the first international convention of the Institute of Radio Engineers.

The music of the instrument had been heard by many before on national hook-ups over the air, but more novel than the actual music was the simplicity with which the young artist seemed to produce it. Standing before a silvery rod which extended above a plain wooden box, Mr. Shewell merely moved his hands back and forth to bring out the tones he desired. His right hand was used to bring out the melody, he explained later, and with his left hand he controlled volume, phrasing and expression.

The Therman is named after its creator, a Russian, who conceived the idea that in the "squeals" of radios was sound that could be utilized as music.

(By Eva A. Tingey)

SMALL DAUGHTER STYLES

When little daughter reaches a certain age, you may fancy she'll be better suited by a belted rather than a straight frock. Here is one which has both qualities. It can be worn either way, and is therefore as suitable a pattern for the little girl as her schoolgirl sister.

It is prettily yoked, has ample easily pressed box pleats, and long sleeves—a nice model for "back to school again."

Carried out in cotton it is of course easily laundered and can have the wee rick-rack edging as shown. In woolen materials the rick-rack can be sewn on to a tape and made removable.

This trim is a childish way of adding a white touch as pique serves for grownups.

This pattern may be obtained in sizes 8 to 14. It is ready for immediate delivery. It is hand cut.

Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your name and full address, the number of the pattern and the size you want.

PILE PAIN

Ends in 1 Minute

"Racked with itchy and pain of piles in 1 minute with 'Sootha-Salva'," writes L. T. Sears, "Bleeding stopped. Piles soon van'ed. Avoided operation." Get instant results today. All druggists.

Not Cramped For Space

Accommodation On R-100 More Commodious Than On Trains

When the British air liner R-100 was over Ottawa, it was difficult to realize that the ship's weight in the air is actually over 150 tons. In length R-100 is larger than any of the ocean liners that sail out of Montreal. The airdrome to house R-100 would have to be larger than any city block in Ottawa.

Passengers on the air liner have cabins as commodious as the cabins on ocean liners. They are larger than the compartments in Pullman sleeping cars. There is more room on the promenade decks of R-100 than in the observation cars of transcontinental trains. The dining saloon will accommodate more passengers than will the dining car of any train.

Under construction, when the long steel girders of the airship were to be seen, it conveyed an impression of strength much like the appearance of an ocean liner in the shipyard. Long before R-100 has reached the present age of the British liner "Mauretania," first class passenger travel will be almost entirely by air.

Persian Balm is a sheer delight to use. Cools and relieves irritations caused by weather conditions. Imparts a rare charm and beauty to the complexion. Fragrant and velvety smooth. Never leaves a vestige of stickiness. Swiftly absorbed by the tissues and stimulates the skin. Persian Balm is the peerless toilet requisite. Every woman will appreciate the subtly distinctive charm achieved by the use of this magical lotion.

Big Tomato Crop

Alberta Farmer To Ship Carload Of Green Tomatoes

Lands which not many years ago were used exclusively for cattle ranching are now producing a large variety of farm crops. The latest development is tomato-raising. One farmer in the Vauxhall District, in Alberta, expects to ship a carload of green tomatoes this season. He will also have about eight carloads of potatoes. These crops were grown on irrigated land. Another farmer has averaged 28 bushels of wheat per acre for nine years.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an expensive medicine. So, keep it at hand, as the call for it may come most unexpectedly.

A philosopher of the fourteenth century has left it on record that: "Most men have three characters—that which they do exhibit, that which they have, and that which they think they have."

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

The Atlas moth, a night flying insect of Central America, is one of the largest insects in the world. Its wings measure 14 inches from tip to tip.

Douglas' Egyptian Liniment is an excellent leg wash for stock. Also removes corns in horses and quickly relieves bruises, sprains, swellings and joint stiffness.

A study looking into causes of street car and bus traffic accidents showed that more than 20 per cent. of the street car and bus operators are "prone-to-accident" men.

Hay Fever

and catarrh are offensive ailments. Heat and inhale Minard's a few times daily, as for colds. It stimulates and relieves the membrane.

Birthplace Of Canada's Premiers

Eastern Provinces Will Not Always Have This Distinction

It is a curious fact (but after all not so curious when the comparative "newness" of the Canadian West is borne in mind) that no premier of Canada has been born west of Western Ontario, where Mr. Meighen "outwrested" Mr. King by a few miles in his nativity.

Indeed until Mr. Meighen took office in 1920, no premier had been born west of Quebec. And with Mr. Bennett another easterner takes office—the first New Brunswicker to become prime minister, although Nova Scotia had given Canada Thompson, Tupper and Borden.

The list of Canadian premiers is an interesting one and indicates a wide range of religious beliefs as well as a diversity of nativities. It is as follows:

Sir John A. Macdonald—a native of Glasgow, Scotland; an Anglican.

Mr. Alexander Mackenzie — native of Perthshire, Scotland; a Baptist, although his relations with the Presbyterian church, in which he had been brought up, were always very close.

Sir J. J. Abbott—a native of Argenteuil, Que.; an Anglican, the son of an Anglican clergyman.

Sir John Thompson—a native of Halifax, N.S.; a Methodist, who later became a Roman Catholic.

Sir Mackenzie Bowell—a native of Suffolk, Eng.; a Methodist.

Sir Charles Tupper—a native of Amherst, N.S.; an Anglican although his father was a Baptist minister.

Sir Wilfrid Laurier—a native of St. Lin, Que.; a Roman Catholic.

Sir Robert Borden—a native of Grand Pre, N.S.; an Anglican.

Mr. Arthur Meighen—a native of Perth, Ont.; a Presbyterian.

Mr. W. L. M. King—a native of Berlin (Kitchener), Ont.; a Presbyterian.

Mr. R. B. Bennett—a native of Hopewell, N.B.; United Church (Methodist).

That is the list to date, but somewhere in Western Canada there is doubtless some lad or young man, or perhaps even a mature man, who, a native of that newer Canada, is destined some day to lead a political party to victory. Time will reveal him.

Of course air travel isn't safe. Why should it be an exception?

How To Lose 24 Pounds of Fat

At the Same Time Gain in Physical Vigor and Youthfulness and Swiftly Possess a Clear Skin and Vivacious Eyes that Sparkle with Health.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one-half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the daily dose that takes off the fat."—Don't miss a morning. Kruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

Modify your diet, and take gentle exercise. The stomach, liver, kidneys and bowels are tuned up, and the pure, fresh blood containing these six salts is carried to every part of the body, and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

An Aviation Mecca

Canada Is World's Best Testing Ground For Aeroplanes

Canada is the world's best testing ground for aeroplanes, as they are given year-round use under varying conditions on wheels, on floats and on skis, said Ernest Robinson, vice-president of the Fairchild Aviation Corporation, in opening the new Canadian factory and aeroplane and seaplane base at Longueuil, Que.

The new plant, which was constructed to turn out Fairchild 'planes for Canadian use, is expected to turn out about 150 Fairchild 'planes a year.

Minard's Liniment is a household friend.

"I never knew until I got a car," said the bishop, "that profanity was so prevalent."

"Do you hear much of it on the road?"

"Why," replied the bishop, "nearly everybody I bump into swears dreadfully."

ENOS "FRUIT SALT"

**Mothers! Don't Risk
Their Health With
Violent Purgatives**

Constipation is one of childhood's greatest enemies. Unless the intestinal system is kept clear and clean ill health is almost sure to follow.

But severe acting laxatives are dangerous. The bodily system of child or adult is not meant to withstand the unnatural, forcing action caused by ordinary, cheap cathartics.

ENO'S "Fruit Salt" in a glass of water, every morning is the safest, surest and most pleasant way to inner cleanliness and perfect health.

But Jim Bennett suddenly pushed between them. "Clear out," he commanded brusquely, with a nod at the door marked "Private." Thus was the president of the Wickfield National Bank ejected from his own quarters. He went peacefully, but not before he had seen something that caused him to blow his nose with exceeding violence as he closed the door; Charmian was weeping, her tears soaking the shoulder of Jim's new suit.

"You promised not to cry, dear," Jim reminded her after an interval. She stirred, as if to move away, but his arms held her so relentlessly that she relaxed and said, not raising her eyes: "I'm terribly ashamed to— to give way like this, Jim. But—but I felt so homeless all of a sudden."

Her voice trembled with heart-break. Jim couldn't stand it. "Don't say that, Charmian," he cried, his own voice shaking. "Homeless! Why, you've got that precious little grandmother, and—and me—any time you'll say the word."

Under the new coat she felt his heart race, as hers was racing. It gave her courage to ask shamelessly: "Then—then you aren't going to be married, after all?"

"Not unless I marry you, sweetheart," he answered.

When BABIES are Upset

BABY ills and ailments seem twice as serious at night. A sudden cry may mean colic. Or a sudden attack of diarrhea. How would you meet this emergency—tonight? Have you a bottle of Castoria ready?

For the protection of your wee one—for your own peace of mind—keep this old, reliable preparation always on hand. But don't keep it just for emergencies; let it be an everyday aid. Its gentle influence will ease and soothe the infant who cannot sleep. Its mild regulation will help an older child whose tongue is coated because of sluggish bowels. All druggists have Castoria.

Fletcher's
CASTORIA

W. N. U. 1855

Sweetheart! Was this her inarticulate Jimmy? Charmian didn't know his voice could sound like that. For a moment she forgot the homelessness that had brought her tears—forgot everything in the sense of relief that flooded through her as she gasped: "Then there isn't a girl in California, as Miss Lizzie said?"

Jim smiled, thinking how innocently his mother had played into his hands. His arms tightened as he answered: "Lots of 'em, Charmian—real Californian peaches, too; but I seem to be a sort of one-girl man, darling. They simply didn't exist—for me."

She lifted her head at that, her eyes so starry that he felt half blinded; but, being Jim, he dropped the arms that clasped her and moved away.

"Look here!" he said. "I didn't mean to take advantage of a moment when you're so down and out. I guess I forgot myself; but I had you in my arms, Charmian, and it played the dickens with me. Forget it, dear, till you can see clearly. You mustn't regard me as—well—as 'any port in a storm,' you know. I realize that there are a lot of things about me that grate on you. Perhaps time will smooth 'em down; but I want to be fair—"

He stopped abruptly, as if speech came too hard; but Charmian moved closer, looking straight up into his honest eyes.

"I see more clearly than I ever have in all my life, Jim," she said quietly, "and I know now that for me, only one thing really matters: Are—are you sure, absolutely, that you love me?"

Jim smiled. "Haven't I been saying so ever since George K. went out that door?" he asked.

There followed an enchanted interval that was balm of Gilead to Jim's faithful heart. Then the girl said: "We must go home to Grandma. It'll be easier now, telling her about the house. Everything will be easier, Jim. Looking back I see that all our lives you've never failed me in hard moments; and now you've made selling the old house seem bearable. Do you know, dear, I never once glanced at that deed! Even now I haven't an idea who bought the place. Did Uncle George mention it to you?"

"No," answered Jim. "He didn't say a word about it."

And then something, she couldn't have said just what, drew Charmian's eyes to George K's old desk and the check, which he'd left lying face up on the shabby blotter.

"How stupid of me!" she cried. "This will tell us, of course. Why! . . . Why, what . . ."

Her voice trailed off into silence as, bending above the desk, she looked down at a signature as familiar as her own. With an unsteady hand she drew the blue slip nearer—then raised her eyes, lips trembling, as she asked: "What does it mean? You! You bought our house, Jim? I don't understand. I—can't—seem. . . ."

"Steady, dear," said Jim, and covered her hand with his. "I couldn't let a stranger buy it, could I? You see, I was afraid the time might come when you'd have to let it go; so when I went West I told Uncle George to keep his eyes open, and make you an offer. I thought when I took Mother away, that it didn't matter much where I was anyhow. I was—positive, that you'd marry the doctor. No," (as she would have spoken), "let me finish, Charmian. I didn't know, you

understand, how well the M.D. was fixed financially, and I wanted to make sure you'd have the house. I hadn't doped out just how I'd give it back to you, but I'd found a way. It looked then as if it were the only thing I'd ever be able to do for you, dear—and I wanted to do so much! And then Uncle George wrote that he suspected you'd turned down the doctor, so—well, I thought if I owned the place, you and Grandma could stay right on as caretakers and fix it up, the way you've always wanted to. I even hoped that, as time went on, you'd get to see that the love I had for you might be worth considering.

"And then all of a sudden I couldn't bear it! I knew I'd got to come home and find out where I stood. I got up at midnight and began to cram things into a suit case. Mother looked in the door and called Aunt Sophie. She was under the impression that I'd lost my mind or. . . ."

As Jim talked he had reached for the newly signed deed and was slowly tearing it into strips under Charmian's fascinated gaze. It was this that caught George K's eyes when, after a considerate rattling of the doorknob, which passed unnoticed, he returned to his own domain.

"What in the name of Sam Hill are you doing?" he demanded with a glance at the waste basket into which Jim had dropped the fragments. "Have you backed out of your bargain at this late date?"

"Yep," replied Jim happily, "but I made another—promised to love, honor, and obey, you understand. Sorry to have caused you all this trouble, Uncle George, but it would be rather foolish to have this paper recorded and then, a week or so later, deed the place back to my—my wife. I think you'll agree to that."

The president of the Wickfield National Bank sank slowly into his worn leather chair. "Jim," he announced shaking his gray head, "when it comes to picking out a wife you've got more horse sense than my three boys put together. As for Charmian, it's my opinion that she might do worse, considerably worse. But—"

"Uncle George," broke in Charmian reproachfully, "you said that the man who wanted to buy our house was some one who had driven by and—"

"Well," interrupted the banker with a twinkle, "I don't know any one who's haunted your vicinity more than Jim has!"

"You said," went on Charmian, still reproachful, "that he was going to be married, and—"

"What's wrong with that statement?" demanded George K, smiling. "You haven't the heart to let him vegetate into an old back like Gam Garfield, have you?"

Jim made an unsuccessful effort to suppress a grin, and said: "I'd no idea you were such an accomplished liar, Uncle George; but as I drove you into it I think we'll have to forgive you—that is, if you promise not to let it happen another time."

"Clear out, both of you," commanded George K. briskly. "I'm going home this minute and tell Salina. I'm expecting a man from Portland on the eleven-ten, but he'll have to wait—darned if he won't! I haven't been so happy since I got word that I was a granddad. Run along, I'm in a hurry." Then, as the young folks reached the door he added: "Charmian, haven't you forgotten something, my dear?"

Charmian laughed, came back, and said as the president of the Wickfield National took her in his arms: "I was wondering if you'd let me go this time without a kiss!"

CHAPTER XXX.

It was twilight, and Grandma Davis sat by the window, living over every hour of the day that was drawing to a close. She had been in a sort of blissful daze from that moment when Charmian and Jim Bennett had burst in upon her, the girl sinking down at her knee as she had always done in childhood when there was anything wonderful to tell. Sometimes it was merely the arrival of the first crocus, or news that the

baby bluebirds in the apple tree were trying their wings. Sometimes it was the prospect of an unexpected treat; a coming circus, perhaps, or a Sunday School picnic—but it was here at Grandma's knee that all glad tidings were poured out. Yet, thought the old lady, catching her breath sharply at its beauty, never before had such radiance shone from the girl's face.

"You'll never have to leave the old house, Grandma darling," she was saying tenderly. "Thanks to this blessed Jim it's ours forever and ever, amen."

Grandma looked up at Jim, then back at Charmian. She did not say that with some strange sixth sense she had known when they left her that Charmian was on her way to sign the deed. It had been a bitter hour for Grandma, waiting there in silence with her memories; and now she asked, not seeing the way quite clearly: "You mean, dearie, that you've sold the house to Jim?"

The young man came closer, smiling down upon her.

"That wasn't necessary, Grandma. Can't you guess why?"

His eyes met Charmian's in a glance that needed no interpretation, and Grandma cried: "You mean she—she's taken you, Jimmy? She's really taken you?"

Jim laughed, softly.

"Incredible as it seems—she has!" "And you're not doing it just for me, dearie?" Grandma's wrinkled face bore a strange mingling of joy and fear. "That wouldn't be fair to Jimmy, Charmian. He deserves the best. You mustn't cheat him even to keep my heart from aching. You're not doing it just to get the house?"

Little Helps For This Week

"Let us not be weary in well-doing, for in due season we shall reap, if we faint not."—Galatians vi. 9.

He liveth long who liveth well,
All else is life but flung away,
He liveth longest who can tell
Of true things truly done each day.

Then fill each day with what will last,
Buy up the moments as they go;
The life above when this is past,
Is the ripe fruit of life below.
—Horatius Bonar.

It is the care of the wise and good man to look to his manners and actions, and rather to how well he lives than to how long; for whether he shall die sooner or later is not his business; but whether he shall die ill or well.—Seneca.

"Yes, granny, I'm to be married in June."

"But, my dear," said grandma, "you are very young. Do you feel you are fitted for married life?"

"I am being fitted now," exclaimed the prospective bride. "Seventeen new gowns."—Tit-Bits.

A wine merchant declares that his wares are his pride. It must be a great temptation for him not to swallow his pride.

B.C. Coal For Peru

Trial Shipment Of Coal From British Columbia Goes To South America

An initial shipment of coal from British Columbia has been sent to Callao, Peru, where it is being favorably received. In the past, Great Britain supplied 75 per cent. of the 30,000 tons required by Peru annually, but owing to some extent to the New South Wales coal strike and to the depressed shipping conditions on the North Pacific, Canada has been able to invade this market.

Picture of Health Now

"In May and June I was badly rundown and had faint spells until it was a drag to do my work. In July and August I didn't seem to pick up so I decided to try Lydia E. Pinkham's Vegetable Compound because I saw it advertised. I took two bottles and now I am the picture of health. I feel fine, do all my work and milk two cows. If any woman writes, I will certainly answer her letter."—Mrs. George R. Gillespie, Punichy, Saskatchewan.

Mr. and Mrs. Allen Hunsperger, Enith and Grace, Miss A. Cressman, Mr. E. Cressman, Mr. and Mrs. M. Cressman, and Mrs. A. Goudie, attended the funeral at Carstairs, of Edna Shantz, daughter of Mr. Uriah Shantz, who died on Sunday, October 5th.

BORN:

To Mr. and Mrs. H. Erb, on September 25th, a daughter.

Bacon Short Course

A Bacon Short Course will be held at Didsbury, on Monday and Tuesday, October 13th and 14th.

The following program of addresses and demonstrations has been arranged: 1st day, at 10-30 a.m.: 1. New hoggrading demonstration; 2. Discussion and selection of hogs for carcass demonstration; 1-30 p.m.: 1. Co-operative marketing; 2. Parasites and diseases.

2nd day, 10-30 a.m.: Care and management of hogs; 1-30 p.m.: 1. Carcass cutting, and demonstration; 2. Meat curing on the farm.

The meetings are held under the direction of the Alberta Department of Agriculture, and the Federal Department of Agriculture, and will be of considerable interest to the farmers. All are urged to attend.

CARD OF THANKS

Mr. A. Spraggs, and family, wish to express their deep appreciation of the help and kindness of their friends and neighbors, during their recent bereavement, also for the many beautiful floral tributes.

RUGBY NOTES

The October meeting of Rugby W.I. was held in the home of Mrs. Carlson, with twelve members and one visitor present. Arrangements were made for the sewing course, which is to be held at Mrs. Wahl's from November 4th to 8th. After business was finished, Mrs. Johnston took up "Current Events," and a short travel talk followed, by Mrs. Hosegood. The meeting then adjourned, the national anthem was sung, and lunch served by the hostess. Members will please take notice that the next meeting will be held in the home of Mrs. Vipond, on the second Thursday in November, on account of the sewing course falling on our usual day of meeting.

C.P.R. New Equipment For Their North Line

Changes and improvements in equipment on the Calgary-Edmonton line of the Canadian Pacific, were made Sunday, September 28th. The new type bucket seat cars are brand new equipment just out of Angus Shops, Montreal, built especially for Calgary-Edmonton service and have many distinctive features that make them most up-to-date equipment. Some of these features are as follows—

All steel construction.
Latest type of easy riding 6 wheel trucks, equipped with rubber shock absorbers, adding materially to the smoothness of operation.

Latest air brake equipment, such as used on the best trains of the American continent.

Electric thermostatic heat control, maintaining even temperature regardless of weather conditions.

Bucket type seats, upholstered in cool moquet material and designed to give utmost comfort and leg room.

Bright, yet soft, electric lighting effect.

Floor covering of a special composition acting as an insulator and sound deadener.

Length over all 86ft.

With the change of time table effective Sunday, September 28th, the equipment on trains between Calgary and Edmonton, is as follows:—

Nos. 521 and 522, the night trains, between the two Cities will have a buffet library compartment observation car, similar to the ones used on the main line trains. Light suppers at night and light breakfasts in the morning may be obtained. These trains will also

The Home of Good Rubbers

have usual steel standard sleeping car and day coaches.

Nos. 523 and 524, the morning trains, will have smoking cars, new bucket seat coaches, cafe cars serving breakfast and lunch, and large parlor cars.

Nos. 525 and 526, afternoon trains, will have smoking cars, new bucket seat coaches, cafe cars, and a new type of parlor cars, having an observation end similar to the observation cars on transcontinental trains.

These improvements in the equipment will undoubtedly meet with the approval of the travelling public, but as far as Didsbury people are concerned, a change in the timetable, allowing for a few hours' stay in Calgary, in which to do business, would be more appreciated. At present, anyone going to Calgary on business, must either use the bus, or be satisfied to return on the midnight train.
